

Dear Store Manager,

After searching every inch of your supermarket's shelves, my quest to find Kid Fuel has come up empty.

I recently received a few promotional bottles of Kid Fuel, the first vitamin-enhanced water-based beverage made exclusively for children. After trying it I was convinced my children would love it. *I was right.* They raved about the taste all afternoon and wanted more.

Now I find myself very interested in purchasing Kid Fuel at my neighborhood market. The problem is that I have not been able to find it locally and would appreciate you stocking this product in your store.

Kid Fuel is made with wholesome ingredients, no high fructose syrup, no artificial flavors or dyes. It is a healthy alternative to high-sugar, high-calorie soft drinks and fruit juices. You can learn more about Kid Fuel just like I did from their website – www.kidfuel.com

Kid Fuel would be a great addition to your refrigerated drink section, juice aisle or health foods aisle.

Thank you for your consideration.

Sincerely,
